Item 4 Advisory Business

Legacy Financial Group, LLC (“the Adviser”) has been in business as a Registered Investment Adviser since 2010 and also operates as doing business name of Longenecker Financial Services. The ownership of Legacy Financial Group, LLC has been changed effective October 1, 2020. Spectrum Wealth Advisors, Inc., which is owned by William Elson, Brian Hood, and Rachel Wood own 100% of Legacy Financial Group, LLC. The Adviser is a fiduciary and is required to act in a client’s best interest at all times.

TYPES OF ADVISORY SERVICES OFFERED

Investment Management

Adviser offers discretionary and non-discretionary investment advisory services to individuals, high net worth individuals, families, and retirement plan accounts. The Adviser uses a time-tested, disciplined approach to investing. The Adviser is a “total portfolio” manager using an active, diversified investment approach. The Adviser believes that a portfolio should be diversified, and excess returns can be achieved by overweighting undervalued asset classes and investment styles. Typically, the Adviser tailors the portfolios to the individual needs of our clients by developing an investment policy statement with each client. The written investment policy statement sets forth the client’s investment guidelines and objectives, which the Adviser uses to guide us in making investment decisions for each client. For discretionary accounts, we are authorized to perform various functions without further approval from the client, such as the determination of securities to be purchased or to be sold for the client’s account without permission from the client prior to each transaction. For non-discretionary investment advisory services, Adviser will obtain client approval prior to taking any action in the account, including but not limited to, executing trades. We do not act as custodian of client assets, and the client will always maintain control of their assets.

Financial Planning, Consulting Services, & Financial Education Services

The Adviser provides financial planning, consulting and plan update services to individuals and businesses consistent with the clients’ financial and tax status, in addition to their risk profile and return objectives.

The Adviser starts the financial planning process by gathering information through a personal interview and taking a financial inventory. This generally involves gathering enough data to perform an analysis of client liabilities, cash flow, net worth and tax assessments. The Adviser’s next step typically involves assisting clients with formalizing their goals and plotting their investment timeline as part of the financial planning process.

Written financial plans or financial consultations rendered to clients usually include general recommendations for a course of activity or specific actions to be taken by the client. For example, recommendations may be made that the client begin or revise investment programs, create or revise wills or trusts, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs. The Adviser may also provide non-securities advice on topics that may include but are not limited to, business, retirement, estate, budgetary, college, personal, and tax planning. It should be noted that the Adviser refers clients to

accountants, attorneys or other specialists, as necessary for non-advisory related services.

We help both clients and their legal teams better understand the impact of the financial decisions they make today and how that can impact the client's financial future through divorce consulting. We do not provide legal advice or draft legal documents, but recommend clients seek the counsel of an attorney as needed.

The Adviser also provides education services about general investment principles. Some education services are provided as presentations to employees at the request of an employer, or during a classroom environment. Education presentations will not take into account the individual circumstances of the attendees and individualized recommendations will not be provided unless otherwise agreed upon.

Financial Planning & Consulting Conflicts of Interest

There is a conflict of interest because there is an incentive for the Adviser when offering financial planning services to recommend products or services for which the Adviser or an associated person may receive compensation. However, financial planning clients are under no obligation to act upon any recommendations of the Adviser or to execute any transactions through the Adviser or an associated person if they decide to follow the recommendations.

Retirement Plan Services

The Adviser offers services to both plan sponsors and participants of retirement plans. Such services many consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. In providing employee benefit plan services, Advisor does not provide any advisory services with respect to the following type of assets: employer securities, real estate (excluding real estate funds and publicly trade REITS), participant loans, non-publicly traded securities or assets, other illiquid investments (collectively "Excluded Assets").

Advisor offers assistance in creating and establishing a plan's asset allocation and in evaluating, and monitoring investment options. This may include reviewing appropriate investment options for the plan, asset classes and investment styles, evaluating and recommending investment managers, types and selection of investment options. We may also conduct periodic reviews of the plan's investments to evaluate performance, risk characteristics and expenses and recommend changes where appropriate.

In addition, we may also work directly with plan participants to help them evaluate their retirement savings goals, determine appropriate investments for their specific retirement accounts, and implement appropriate contribution amounts and investments available in the plan. Advisor services plan participants on a discretionary or non-discretionary basis, pursuant to the plan documents and the plan participants preference.

All pension consulting services follow the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans ("Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If the client accounts are part of a Plan, and the Adviser accepts appointments to provide our services to such accounts, the Adviser acknowledges that we are a fiduciary within the meaning

of Section 3(21) of ERISA (but only with respect to the provision of services described in the Advisor's 401K Investment Management Agreement).

The Firm does not act as custodian for any client account.

Pension Consulting Services

The Adviser provides pension consulting services to employer plan sponsors on an ongoing basis. Generally, such pension consulting services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure and participant education.

All pension consulting services follow the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans ("Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If the client accounts are part of a Plan, and the Adviser accepts appointments to provide our services to such accounts, the Adviser acknowledges that we are a fiduciary within the meaning of Section 3(21) of ERISA (but only with respect to the provision of services described in section 1 of the Pension Consulting Agreement).

Divorce Planning

We help both clients and their legal teams better understand the impact of the financial decisions they make today and how that can impact the client's financial future. We do not provide legal advice or draft legal documents, but recommend clients seek the counsel of an attorney as needed.

Third Party Money Managers

The Adviser has established relationships with other investment advisers that offer a variety of investment advisory programs and services that include separate account portfolio management programs, asset allocation programs, wrap fee programs, and financial planning services. These other investment advisers are registered investment advisers or exempt from registration as investment advisers. The Adviser's Investment Adviser Representatives ("IARs") may recommend these other investment advisers to clients based on clients' financial needs.

Clients should understand that referral fees paid by these other investment advisers to the Adviser and the Adviser IARs may differ from one investment adviser to another investment adviser. Such conflicts may affect the independent judgment of the Adviser's IARs in the selection of other investment advisers that they recommend to clients. Establishing and terminating accounts with other investment advisers is dependent on the other investment advisers' termination policies and procedures. A complete description of these other investment adviser programs, services, termination provisions, and related fees and charges are described in these investment advisers' agreements and their Form ADV Part 2 Disclosure Brochures.

The Adviser's referrals to other investment adviser services are tailored to the individual needs of each client. The Adviser obtains financial information from prospective clients to determine the suitability of the Adviser's referrals to other investment adviser services. Each client may impose

restrictions on the types of referrals provided by the Adviser. The Adviser's IARs will be continuously available to meet with clients who are referred to these other investment advisers and open investment advisory accounts or establish financial planning services with these other investment advisers.

TAILORED RELATIONSHIPS

Advisor offers the same suite of services to all of its clients. The management services and recommendations offered by the Advisor are based on the individual needs of our clients and the suitability of products and services. Specific client financial plans and their implementation are dependent upon each client's current situation (income, objectives, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients have the opportunity to place reasonable restrictions on the types of investments to be held in their portfolio. However, restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account. Restrictions would be limited with our Wrap Fee Program.

WRAP FEE PROGRAMS

Advisor acts as portfolio manager for and sponsors a Wrap Fee Program, which is an arrangement between broker-dealers, investment advisers, banks and other financial institutions and affiliated and unaffiliated investment advisers through which the clients of such firms receive discretionary investment advisory, execution, clearing and custodial services in a "bundled" form. In exchange for these "bundled" services, the clients pay an all-inclusive (or "wrap") fee determined as a percentage of the assets held in the wrap account. For details on the Advisor's WRAP program, please see Form ADV Part 2A Appendix – WRAP Fee Brochure. Advisor manages the investments in the wrap fee program, but does not manage those wrap fee accounts any differently than it would manage a non-wrap fee account. Advisor notes that its Wrap Fee Program is only available to existing clients in the Wrap Program and is only available now to Retirement Plan Accounts in which the Plan documents require a Wrap Fee Program.

ASSETS UNDER MANAGEMENT

Advisor manages a total of \$711,697,562 of assets under management on a discretionary basis and \$1,391,700 on a non-discretionary basis for a total of \$713,089,262 as of December 31, 2021

Item 5 Fees and Compensation

Investment Management

Our standard advisory fee ranges from 0.70 to 1.2%, depending in part on, the size of the account, prospective growth, complexity, and other factors that may differ from client to client, with break points for AUM thresholds. These fees are billed quarterly, in advance, based on daily average balance (cash values unless exempted) of the Assets of the previous quarter*. Fees do not include execution costs for brokerage transactions. All fees are negotiable at the Adviser's discretion. The fee you will pay will be disclosed in your advisory agreement. Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of

time remaining in the billing period. Advisor will also bill on a pro rata basis for any additional contributions made during a billing period after the initial contribution.

* As Advisor is in the process of implementing this fee calculation method, legacy clients may continue to be billed quarterly, based upon the market value of the Assets on the last day of the previous quarter during this transition period.

Fees will be deducted from the client's account at an independent qualified custodian upon their written authorization. In rare cases, Advisor will agree to directly bill clients. As part of this process, clients understand and acknowledge the following:

- (a) The client's independent custodian sends statements at least quarterly showing all disbursements for the account, including the amount of the advisory fees paid to Advisor;
- (b) The client provides authorization permitting Advisor to be directly paid by these terms;
- (c) If Advisor sends a copy of an invoice to the client, Advisor will also send a copy of the invoice to the independent custodian;
- (d) If Advisor sends a copy of an invoice to clients, the invoice will include a legend that urges the client to compare information provided in their invoice with statements received from the qualified custodian.

Financial Planning & Consulting Fees

The Advisor charges clients a range of \$150 - \$250 an hour for financial planning and consulting services. Clients are given a quote that is based on the hourly rate times an estimate of the number of hours a project will take. This is based on the range and complexity of the services the Advisor will provide. Generally, projects fall within a 4-to-8-hour range which is \$600-\$2000 per engagement. The fee-paying arrangements for financial planning services will be detailed in the signed Agreement.

The Advisor may waive the financial planning charges when clients receive advisory services through persons associated with the Advisor.

If clients elect to implement recommendations made in a financial plan, their accounts may incur retirement plan administration fees, and other mutual fund annual expenses that are charged by broker-dealers, plan administrators or mutual fund companies that sell securities or provide additional services to Advisor clients. These fees are in addition to and separate from financial planning and consulting fees.

Fees are due and payable upon completion of the services. Under no circumstances will the Advisor charge fees in excess of \$1,200 more than six months in advance of services rendered.

Clients will have a period of five (5) business days from the date of signing an agreement to unconditionally rescind the agreement and receive a full refund of all fees. Thereafter, clients may terminate an agreement by providing the Advisor with written notice prior to delivery of the plan or completion of the service. The Advisor may terminate an agreement by providing written notice to clients. Since fees are payable only after services are provided, there are no unearned fees

and the client will not have a refund due upon early termination of the advisory agreement.

Financial Education Program Fees

For Financial Education services, the Adviser charges a flat fee or a fee of \$100 - \$150 per student depending upon the educational program chosen.

Retirement Plan Services

Our standard advisory fee ranges from 0.70 to 1.2%, depending in part on, the size of the account, prospective growth, complexity, and other factors that may differ from client to client, with break points for AUM thresholds. The Plan Participant's fee tier will be determined by the total value of the Plan Assets. These fees are billed quarterly, in advance, based on daily average balance (cash values unless exempted) and calculated based upon the total plan assets of the previous quarter*. Fees do not include execution costs for brokerage transactions. All fees are negotiable at the Adviser's discretion. The fee you will pay will be disclosed in your advisory agreement. Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. Advisor will also bill on a pro rata basis for any additional contributions made during a billing period after the initial contribution.

* As Advisor is in the process of implementing this fee calculation method, legacy clients may continue to be billed quarterly, based upon the market value of the Assets on the last day of the previous quarter during this transition period.

Fees will be deducted from the client's account at an independent qualified custodian upon their written authorization. In rare cases, Adviser will agree to directly bill clients. As part of this process, clients understand and acknowledge the following:

Pension Consulting Fees

We charge on an hourly or flat fee basis for pension consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. Our hourly fee is \$150. Our flat fees generally range from \$750 to \$10,000 or may be charged as a percentage of assets within the pension plan not to exceed 1.5%. Flat fees will be charged annually in arrears for ongoing pension consulting services.

The fee-paying arrangements for pension consulting service will be determined on a case-by-case basis and will be detailed in the signed Pension Consulting Agreement. The client will be invoiced directly for the fees. In cases where the fee is charged as a percentage of assets within the plan, the ongoing fee shall be due and payable quarterly in advance based upon the value of the Plan's Account(s) on the last day of the quarter. Should the Plan have more than one Account, the Fee shall be payable in proportion to the respective Account value(s). The Adviser's fees will be debited directly from the Plan's Account(s) and Client authorizes the custodian for the Plan assets, which may be upon instruction from the Plan's administrator, to deduct Adviser's fees directly from the Plan's Account(s). administrative fees, brokerage commissions, transaction fees, charges imposed directly by a mutual funds, index funds, or exchange traded funds purchased for the account which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses), wire transfer fees and other fees and taxes on brokerage accounts and securities transactions.

TERMINATION AND REFUNDS

We charge our asset based advisory fees quarterly in advance. In the event that you wish to terminate our services, we will refund the unearned portion of our advisory fee to you. You need to contact us in writing and state that you wish to terminate our services. Upon receipt of your letter of termination, we will proceed to close your account and process a pro-rata refund of unearned advisory fees.

Financial Planning and Consulting clients may terminate their agreement at any time before the delivery of a financial plan by providing written notice. In the event of a termination before the delivery of a financial plan, Clients will receive a refund of an unearned, prepaid fees and an invoice documenting the time spent working on the financial plan up to the point of termination.

COMMISSIONABLE SECURITIES SALES

Certain Investment Adviser Representatives (IARs) with Legacy Financial Group are dually Registered Representatives of Brokers International Financial Services, LLC ("Brokers Financial") a registered broker-dealer, member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). In their positions as a registered broker the representatives may sell and accept compensation for the sale of securities or other investment products, including distribution or service ("trail") fees from the sale of mutual funds. You should be aware that the practice of accepting commissions for the sale of securities:

1. Presents a conflict of interest and gives the advisor an incentive to recommend investment products based on the compensation received, rather than on the client's needs. Our firm generally addresses commissionable sales conflicts that arise when explaining to clients that commissionable securities sales creates an incentive to recommend products based on the compensation he may earn and/or when recommending commissionable mutual funds, explaining that "no-load" funds are also available.
2. In no way prohibits you from purchasing investment products recommended by us through other brokers or agents which are not affiliated with us.
3. Does not exceed more than 50% of our revenue.
4. Does not reduce your advisory fees to offset the commissions our supervised persons receive.

Adviser notes that commissions are not charged to its fee-based / investment advisory clients. In the event that a client pays a load fee for a mutual fund and then later wishes to move to a fee-based account, Advisor does not charge fees on those impacted assets for any time remaining up to twenty-four (24) months from when a commission was received.

TRADE ERRORS

Any Adviser created trade errors that result in a net debit to client accounts will be debited against Adviser's Error Account and the client made whole. Any Adviser created trade errors that result in a net credit will be donated to a charity of the Custodian's choice.

Item 5 Performance-Based Fees and Side-By-Side Management

The Adviser does not charge or receive, directly or indirectly, any performance-based fees and does not participate in side-by-side arrangements.

Item 6 Types of Clients

The Adviser provides advisory services to:

- Individuals and High Net Worth Individuals;
- Trusts, Estates or Charitable Organizations;
- Pension and Profit Sharing Plans;
- Corporations, Limited Liability Companies and/or Other Business Types.

ACCOUNT MINIMUMS

The Adviser does not impose a minimum account requirement on clients.

Item 7 Methods of Analysis, Investment Strategies and Risk of Loss

The Adviser works with each client to design an appropriate investment strategy based on client financial and tax status, risk tolerance and investment objectives. The Adviser usually recommends investment strategies for the long-term, but may occasionally recommend short-term investment and hedging strategies. The Adviser generally recommends a target asset mix with periodic rebalancing.

The Adviser uses the following methods of analysis in formulating investment advice and may use outside analysts to review the portfolios:

Fundamental – This is a method of evaluating a security by attempting to measure its intrinsic value by examining related economic, financial and other qualitative and quantitative factors. Fundamental analysts attempt to study everything that can affect the security's value, including macroeconomic factors (like the overall economy and industry conditions) and individually specific factors (like the financial condition and management of companies). The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security's current price in hopes of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short). This method of security analysis is considered to be significantly different from technical analysis. Fundamental analysis is about using real data to evaluate a security's value. Although most analysts use fundamental analysis to value stocks, this method of valuation can be used for just about any type of security. In providing certain advice in connection with certain clients, research, asset allocation methodologies and investment strategies are used.

Technical Analysis

Technical analysis is a method of evaluating securities by relying on the assumption that market data, such as charts of price, volume and open interest can help predict future (usually short-term) market trends. It attempts to predict a future stock price or direction based on market trends. Technical analysis assumes that market psychology influences trading in a way that enables predicting when a stock will rise or fall. The risk is that markets do not always follow patterns and relying solely on this method may not work long term. We may recommend the use of both fundamental and technical analysis strategies for a client in order to provide yet another form of risk management by offering differing investment styles.

The Adviser uses the following investment strategies when providing investment advice:

Long term purchases. Securities are purchased with the idea of holding them for a relatively long time (typically held for at least a year).

Short term purchases. Securities are purchased with the idea of selling them within a relatively short time (typically a year or less).

Options. Options are used to “hedge” the purchase of the underlying security. Options are purchased to limit the potential upside or downside of a security purchased in a client’s portfolio.

Structured Notes. Structured notes may be used to reduce risk exposure in a client’s portfolio based on current market trends.

This is not intended to be an all-inclusive list.

USE OF PRIMARY METHOD OF ANALYSIS OR STRATEGY

The Adviser’s primary method of analysis or strategy is long term purchases. Long term purchases is a strategy in which investments (such as stocks, bonds, mutual funds, etc.) are bought and held for a long period, which is generally at least one year or more. Generally, this strategy is not influenced by short term market fluctuations because the approach rests upon the assumption that long term prices will go up because of an expanding economy with profits, dividends and increased stock prices. Long term purchases minimize portfolio turnover, which can reduce commission costs, and taxes can be reduced or deferred. Some of the risks involved with using this method include short term market volatility causing investor concern, risk of loss when the asset is sold, market or company volatility or loss. Investments carry a risk of loss of principal, earnings or both. Past performance is not a guarantee of future performance.

RISK OF LOSS

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, the Adviser is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate a client from losses due to market corrections or declines. There are certain additional risks associated when investing in securities.

- Market Risk – Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.
- Equity (stock) market risk – Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer.
- Company Risk. When investing in stock positions, there is always a certain level of company or industry specific risk that is inherent in each investment. This is also referred to as unsystematic risk and can be reduced through appropriate diversification. There is the risk that the company will perform poorly or have its value reduced based on factors specific to the company or its industry. For example, if a company's employees go on strike or the company receives unfavorable media attention for its actions, the value of the company may be reduced.
- Fixed Income Risk. When investing in fixed income instruments such as bonds or notes, there is the risk that issuer will default on the bond and be unable to make payments. Further, individuals who depend on set amounts of periodically paid income face the risk that inflation will erode their spending power. Fixed-income investors receive set, regular payments that face the same inflation risk.
- Options Risk. Options on securities may be subject to greater fluctuations in value than an investment in the underlying securities. Purchasing and writing put and call options are highly specialized activities and entail greater than ordinary investment risks.
- ETF and Mutual Fund Risk – When investing in an Exchange Traded Fund or mutual fund, a client will bear additional expenses based on the client's pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. Clients will also incur brokerage costs when purchasing ETFs.
- Management Risk – Your investments will vary with the success and failure of our investment strategies, research, analysis and determination of portfolio securities. If you implement our financial planning recommendations and our investment strategies do not produce the expected results, the value of your investment may decrease.
- Credit Risk – Credit risk can be a factor in situations where an investment's performance relies on a borrower's repayment of borrowed funds. With credit risk, an investor can experience a loss or unfavorable performance if a borrower does not

repay the borrowed funds as expected or required. Investment holdings that involve forms of indebtedness (i.e. borrowed funds) are subject to credit risk.

- **Liquidity Risk** – Certain assets may not be readily converted into cash or may have a very limited market in which they trade. Thus, you may experience the risk that your investment or assets within your investment may not be able to be liquidated quickly, thus, extending the period of time by which you may receive the proceeds from your investment. Liquidity risk can also result in unfavorable pricing when exiting (i.e. not being able to quickly get out of an investment before the price drops significantly) a particular investment and therefore, can have a negative impact on investment returns.

This is not intended to be an all-inclusive list. Each client should review the mutual fund prospectus for the specific risks related to each fund that is held in each account.

Neither the Adviser nor any affiliated broker-dealer affects securities transactions as principal with the Adviser's clients.

Personal Trading of Associates Affiliated with a Brokerage Firm

Each IAR, in his or her capacity as a Registered Representative of Brokers Financial may receive payments from certain mutual funds distributed pursuant to a 12b-1 distribution plan, or other such plans, as compensation for administrative services, representing a separate financial interest.

As such, a conflict of interest exist with respect to recommendations to buy or sell securities. In all cases, recommendations are made in the best interests of the client. The Adviser does not permit insider trading and has implemented procedures to ensure that its policy regarding insider trading is being observed by associated persons.

Agency-Cross Action Transactions

Neither the Adviser nor any associated person recommends to clients or buys or sells for client accounts securities in which the Adviser or an associated person has a material financial interest. Neither the Adviser nor any associated person acting as a principal, buys securities from (or sells securities to) clients, acts as general partner in a partnership in which Adviser solicits client investments, or acts as an investment adviser to an investment company that the Adviser recommends to clients.

ITEM 11.C – PERSONAL TRADING BY ASSOCIATED PERSONS

The Adviser recommends that clients invest in various types of assets. The Adviser and its associated persons may invest in the same types of assets. Permitted investments for associated persons are all asset classes. **See Item 11.D for conflicts of interest.**

ITEM 11.D – CONFLICTS OF INTEREST WITH PERSONAL TRADING BY ASSOCIATED PERSONS

Associated persons may own an interest in or buy or sell for their own accounts the same securities, which may be recommended to advisory clients. Associated persons seek to ensure that they do not personally benefit from the short-term market effects of their recommendations to clients, and their personal transactions are regularly monitored.

Associated persons are aware of the rules regarding material non-public information and insider trading. Associated persons may also buy or sell a specific security for their own account based on personal investment considerations, which the Adviser does not deem appropriate to buy or sell for clients.

Item 11 Brokerage Practices

ITEM 12.A – FACTORS IN SELECTING OR RECOMMENDING BROKER-DEALERS

The Adviser recommends that clients establish accounts with TD Ameritrade Institutional, a division of TD Ameritrade, Inc., member FINRA/SIPC ("TD Ameritrade"). TD Ameritrade offers services to independent investment advisers which include custody of securities, trade execution, clearance and settlement of transactions. The Adviser seeks to recommend a custodian/broker who will hold client assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. The Adviser considers a wide range of factors, including, among others, these:

- Ability to maintain the confidentiality of trading intentions
- Timeliness of execution
- Timeliness and accuracy of trade confirmations
- Liquidity of the securities traded
- Willingness to commit capital
- Ability to place trades in difficult market environments
- Research services provided
- Ability to provide investment ideas
- Execution facilitation services provided
- Record keeping services provided
- Custody services provided
- Frequency and correction of trading errors
- Ability to access a variety of market venues
- Expertise as it relates to specific securities
- Financial condition
- Business reputation

Each IAR, in his or her capacity as a Registered Representative of Brokers Financial may also suggest that clients implement recommendations through Brokers Financial. If the client so elects, the IAR would receive normal and customary commissions in his or her capacity as a registered person of Brokers Financial presenting a conflict of interest. Furthermore, in implementing a financial plan, clients may pay commissions or fees that are higher or lower than those that may be obtained elsewhere for similar services. Clients are advised that they are under no obligation

to implement the plan or its recommendations through the IAR in his or her capacities as a Registered Representative.

Item 12.A1 – Research and Other Soft Dollar Benefits

The Adviser does not receive soft dollars generated by the securities transactions of its clients. The term "soft dollars" refers to funds which are generated by client trades being used by the Adviser to purchase products or services (such as research and enhanced brokerage services) from or through the broker-dealers whom the Adviser engages to execute securities transactions.

The Adviser, however, does receive some "eligible" products and services under Safe Harbor as determined under the Securities and Exchange Act, Section 28(e). Research products and services provided by TD Ameritrade may include research reports on recommendations or other information about, particular companies or industries; economic surveys, data and analyses; financial publications; portfolio evaluation services; financial database software and services; computerized news and pricing services; quotation equipment for use in running software used in investment decision-making; other products or services that provide lawful and appropriate assistance by TD Ameritrade to our firm in the performance of our investment decision-making responsibilities.

While, as a fiduciary, the Adviser endeavors to act in its clients' best interests, the Adviser's recommendation that clients maintain their assets in accounts at TD Ameritrade may be based in part on the benefit to the Adviser of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost, or quality of custody and brokerage services provided by TD Ameritrade, which creates a conflict of interest.

In addition, third party vendors have occasionally provided funds for events for Adviser's clients which also meets the definition of "eligible" products and services under Safe Harbor as determined under the Securities and Exchange Act, Section 28(e).

Item 12.A2 – Brokerage for Client Referrals

The Adviser does not refer clients to particular broker-dealers in exchange for client referrals from those broker-dealers.

Item 12.A3 – Directed Brokerage

The Adviser does not require that clients direct their brokerage business to any particular broker-dealer.

ITEM 12.B – TRADE AGGREGATION

On occasions when the Firm deems the purchase and sale of a security to be in the best interests of more than one of its clients, the Firm may aggregate multiple contemporaneous client purchase or sell orders into a block order for execution. Executed orders are allocated among participating accounts according to each account's pre-determined participation in the transaction.

Clients' accounts for which orders are aggregated receive the average price of such transaction, which could be higher or lower than the price that would otherwise be paid by a client absent the

aggregation. Any transaction costs incurred in the transaction will be assessed to each client based on each client's level of participation in the transaction. Please refer to the Block Trading Procedures for specifics.

Item 12 Review of Accounts

IARs perform reviews of investment advisory accounts no less than quarterly. Accounts are reviewed for consistency with the investment strategy and performance, among other things. Reviews may be triggered by changes in an account holder's personal, tax, or financial status. There is currently no limit on the number of accounts that can be reviewed by an IAR.

Financial plans are reviewed only upon request. Clients are notified prior to this review that a new client engagement may be established, and any projected fees associated with the new engagement will be disclosed.

The Adviser does not provide any periodic reports to clients unless asked to do so. Any reports provided from the Adviser will be specific to the services client has requested pursuant to an executed agreement with the Adviser.

Pension Consulting clients receive reviews of their pension plans for the duration of the pension consulting service. We also provide ongoing services to Pension Consulting clients where we meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc. Pension Consulting clients do not receive written or verbal updated reports regarding their pension plans unless they choose to contract with us for ongoing Pension Consulting services.

Item 13 Client Referrals and Other Compensation

CLIENT REFERRALS

The Adviser has entered into solicitation agreements pursuant to which it compensates third-party intermediaries for client referrals. The Adviser will disclose these solicitation arrangements to affected investors, and any cash solicitation agreements will comply with Rule 206(4)-3 under the Advisers Act. Solicitors introducing clients to the Adviser will receive a flat fee per referral. Such compensation will be paid pursuant to a written agreement with the solicitor and generally may be terminated by either party from time to time. The cost of any such fees will be borne entirely by the Adviser and not by any affected client. As indicated above, the firm does not direct brokerage transactions to any third party, including TD Ameritrade, in return for client referrals.

The Adviser offers reduced Financial Planning fees to employees of the State of Iowa through the Perks Spot offering.

As part of our employee compensation package, incentive bonuses may be allocated based on referring new client relationships.

RECEIPT OF ADDITIONAL COMPENSATION

As disclosed under Item 12 of this Brochure, we participate in TD Ameritrade's institutional customer program and we may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between our firm's participation in the program and the investment advice we give to our Clients, although we receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving our firm's participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by our firm's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit our firm but may not benefit our Client accounts. These products or services may assist us in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to our clients, we endeavor at all times to put the interests of our clients first. Clients should be aware, however, that the receipt of economic benefits by our firm or our related persons in and of itself creates a conflict of interest and may influence our firm's choice of TD Ameritrade for custody and brokerage services.

Item 14 Custody

The Adviser doesn't accept physical custody of client funds or securities. Client assets are held by qualified custodians. Clients may have standing letters of authorization on their accounts. The Firm has reviewed those relationships and determined that they meet the IAA no action letter seven conditions and do not trigger the surprise custody audit.

TD Ameritrade sends account statements directly to clients on at least a quarterly basis. Clients should carefully review these statements, and should compare these statements to any account information provided by the Adviser.

Item 15 Investment Discretion

It is Adviser's customary procedure to have full discretionary authority in order to supervise and direct the investments of a client's accounts. Client's grant this authority upon execution of Adviser's Discretionary Investment Management Agreement. This authority is for the purpose of making and implementing investment decisions, without the client's prior consultation. All investment decisions are made in accordance with the client's stated investment objectives. Other

than management fees due to Adviser, which Adviser will receive directly from the custodian, Adviser's discretionary authority does not give authority to take or have possession of any assets in the client's account or to direct delivery of any securities or payment of any funds held in the account to Adviser. Furthermore, Adviser's discretionary authority by agreement does not allow it to direct the disposition of such securities or funds to anyone except the account owner.

Clients may impose reasonable restrictions, in writing, on investing in certain securities or types of securities in accordance with their values and beliefs. Adviser will make every effort to comply with the wishes of the client but cannot guarantee absolute adherence due to our use of indexed products, funds, and ETFs that are controlled by third party managers.

As discussed in Item 4, Adviser may manage employer sponsored retirement plans on a nondiscretionary basis for certain plan participants pursuant to the plan documents and client preference. All other client accounts will be managed on a discretionary basis. Adviser has a limited number of nondiscretionary, but is not adding additional accounts at this time.

Item 16 Voting Client Securities

The Adviser does not accept authority to vote proxies on behalf of clients as a matter of policy. Clients will receive their proxy information directly from their custodian.

Clients may contact the Adviser with questions about a particular solicitation by telephone at (515) 255-3306.

Item 17 Financial Information

The Adviser does not require or collect prepayment of more than \$1,200 in fees, six months or more in advance, so no balance sheet is being provided. There is no financial condition that is reasonably likely to impair the Adviser's ability to meet its contractual commitments to its clients. The Adviser has not been subject to a bankruptcy petition at any time.

Item 4 – Other Business Activities

Ms. Smith, in her individual capacity, is a licensed insurance agent, and recommends the purchase of certain insurance-related products on a commission basis. Clients can engage Ms. Smith to purchase insurance products on a commission basis. Ms. Smith's sales of insurance-related products also make her eligible to receive other forms of compensation, including health insurance, a deferred compensation plan, sales awards, and incentive trips if certain sales thresholds are met.

The recommendation by Ms. Smith that a client purchase an insurance commission product presents a conflict of interest, as the receipt of commissions or other compensation provides an incentive to recommend insurance products based on commissions to be received, rather than on a particular client's need. The client's particular needs and goals are considered when purchasing an insurance contract. No client is under any obligation to purchase any insurance commission products from Ms. Smith. Clients are reminded that they may purchase insurance products recommended by Ms. Smith through other, non-affiliated insurance agents.

Item 5 – Additional Compensation

Ms. Smith receives additional compensation through her outside business activities, as discussed in Item 4.
